

## Investor Update

July 11, 2018

This investor update provides Spirit's second quarter 2018 guidance. All data is based on preliminary estimates.

Total revenue for the second quarter 2018 came in more than \$10 million higher than the mid-point of our implied guidance. Total revenue per available seat mile (TRASM) for the second quarter 2018 is estimated to be approximately 8.95 cents, down 6.8 percent year over year. During the second quarter 2018, we achieved a better-than-expected completion factor, driving slightly higher capacity, which had a negative impact of approximately 50 basis points on our year-over-year TRASM result.

Adjusted cost per available seat mile excluding fuel for the second quarter 2018 is expected to be down approximately 11 percent year over year, better than our previous guidance of down 7.5 to 8.5 percent. We estimate approximately 100 basis points of the better-than-expected performance is related to expense shifting from the second quarter to the fourth quarter 2018 due to timing, with the remainder attributable to better operational performance, including higher completion factor.
